Dear Valued Customer,

RE: Declaration of Conformity to CA Prop 65

As part of our product stewardship and regulatory compliance efforts, we continue to monitor potential regulatory, safety, health and environmental impact of using your products. As such, we would like to inform you regarding the new requirements of the regulation concerning California Proposition 65.

California Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, became law in November 1986. Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that the State of California has determined are known to the state to cause cancer, birth defects or other reproductive harm. On August 31, 2016, the State of California Office of Environmental Health Hazard Assessment (OEHHA) adopted certain amendments to Article 6, Clear and Reasonable Warnings for California Proposition 65. For more information on warnings, go to www.P65Warnings.ca.gov.

Products manufactured by Probes Unlimited do not contain the substances regulated by California Proposition 65. As such, PUI products are not required to have the California Proposition 65 warning labels.

Signed for on behalf
of PUI:

Ernest DeLany, President
